

## JUNIOR CONFERENCE EXPECTATIONS

Sometimes, no matter the age of our daughter, she may not be comfortable staying away from home. If you would like your daughter to attend Junior Conference, we would love to have her, but please make sure she is comfortable being away from home for two nights. Please also stress to your daughter the importance of following the rules set by the camp and the Auxiliary so she can fully enjoy her time at Junior Conference.

We are looking forward to a fun and exciting weekend with the Junior Auxiliary. In order for us to have the most successful weekend, there are some rules for Junior Conference. We will go over the rules with the girls when we commence on Friday afternoon.

Here are a couple of key rules for Junior Conference that you as parents should be aware of:

1. Cell phone use is not permitted except at free time or to call parents to say goodnight before bed. First time this rule is broken, she will receive a warning, the second time her phone will be taken away and held by the Director for the remainder of the weekend.
2. Girls must be with an adult at all times and are not to wander off. First offense, she will receive a warning, second offense, she will be under the supervision of one of the committee members, third offense, the parents will be called to pick her up. This rule is for your daughter's safety.
3. Any egregious act that puts your daughter's safety or the safety of others in question, will be cause for a call to be placed to the parents and your daughter to be picked up from Junior Conference.

### PARENT AGREEMENT

I believe my daughter will enjoy her time away from home for Junior Conference. If, for any reason, my daughter needs to leave Junior Conference prior to its conclusion, I agree to drive to Wonder Valley in Sanger, California to pick her up or make the necessary arrangements to have her picked up.
