

Auxiliary Members,

I have been tasked with putting together needed supplies for our 2017 Junior Conference Store. It is still early in the year and we are excited to reach out to every District for support.

District Presidents - Please share this information with the Units in your District. The entire Department of California will determine the success of the store. With a budget of ZERO dollars, we need to reach into our pockets and do our best to provide the supplies needed for the Junior members who attend. WE WILL pack our store with lots of goodies the Junior members will love.

Following is list of ideas. The Junior Conference Committee's goal is to have all supplies needed by Mid-year. If you would like to make a monetary donation, please reply and one of us will be happy to shop on your behalf. Remember, the success of this store can only be achieved with your support! Junior members are the future of the American Legion Auxiliary. Please consider our request!
