Who do you see before and after your doctor's appointment?

Who is the first one you see when you are admitted to and out and  
of the hospital?                   A NURSE!

From ensuring the most accurate diagnoses to the ongoing education of the public about critical health issues; nurses are indispensable in safeguarding public health.

Nursing can be described as both an art and a science, a heart and a mind.

Are you still looking for that special person to receive our  
\$4000 Nurse's Scholarship?
